Cave Creek Development, Inc of Dunnellon has just completed the rollout of their newest 3 Model Affordable Home Series that is specifically designed for Central Florida. This group of Models utilizes exterior styling that compliments our area's natural beauty through the use of stone, brick and native timbers. J D Donahoe Vice President of Cave Creek enjoys providing Energy Efficient Homes for his clients, too. "Energy Star Homes," JD states, " Can easily become Green Homes. A few common sense improvements will save our clients money every single month through lower power bills."

Mr. Donahoe enjoys finding solutions to his client's dreams and is proud to produce good quality products. Many of Cave Creek's clients simply want to remodel a home, create a room addition, or add a detached garage. Mr. Donahoe enjoys the hands on approach and personally meets with each customer to create a structure that matches the conditions of the property. " It feels good to get letters of appreciation, " JD adds, " From clients that recognize that we strive for extra personal assistance and complete dedication to our clients."

Cave Creek has recently joined the Dunnellon Chamber of Commerce and has been active with the Citrus County Builders Association. Mr. Donahoe is excited about the Green Building Council of the CCBA because of the work to make living on the Nature Coast more efficient and comfortable. Cave Creek Development, Inc also performs Property Management Services, Builds Commercial Structures, Design and Builds Custom and Affordable Homes and has almost 25 years of experience in the industry. JD Donahoe got his start on the Treasure Coast of Florida near Stuart and has been involved with multi story custom homes and commercial structures most of his career. The Business has been established in Citrus County on The Marion County line since 2007 and services the surrounding counties as well.

Cave Creek can be reached at 352-465-4758 and their website is most informative and has many photos. Please visit www.cavecreekdev.com
